Atlantic Swordfish Landings Update 2005 First and Second Semi-Annual Seasons

The table below provides preliminary landings estimates and remaining quotas as of August 31, 2005, in pounds (lb) and metric tons (mt) dressed weight (dw) for the Atlantic swordfish fisheries for the first semi-annual season of the 2005 fishing year. The revised quotas for the 2004 and 2005 fishing years were published in the Federal Register on November 23, 2004 (69 FR 68090). The 2005 annual directed base landings quota for North Atlantic swordfish is 2,937.6 mt dw (not adjusted for underharvests), and the annual incidental quota is 300 mt dw. In addition, 150.4 mt dw North Atlantic swordfish quota may be caught between 5 degrees North latitude and 5 degrees South latitude. The annual directed base landings quota for South Atlantic swordfish is 75 mt dw (not adjusted for underharvests). A rule proposing to adjust the 2005 quotas based on underharvests from the 2004 fishing year should publish this fall.

	Quota mt dw	Landings		Remaining Quota		Percent of Quota Taken
		mt dw	lb dw	mt dw	lb dw	
NORTH ATLANTIC SWORDFISH						
Directed Fishery First Season (June 1, 2005 - Nov 30, 2005)	1,468.8	229.7	506,305	1,239.1	2,731,811	16%
Directed Fishery Second Season (Dec 1, 2005 - May 31, 2006)	1,468.8	0	0	1,468.8	3,238,116	0%
Total (Directed)	2,937.6	229.7	506,305	2,707.9	5,969,928	8%
Incidental Fishery (annual quota)	300	2.2	4,891	297.8	656,489	<1%
SOUTH ATLANTIC SWORDFISH						
Directed Fishery (annual quota)	75	0	0	75	165,345	0%

This FAX notice is a courtesy to Atlantic swordfish fishery interests to keep you informed about your fishery. Official notice of Federal fishery actions is made through filing such notice with the Office of the Federal Register. To view catch statistics from previous months, please visit http://www.nmfs.noaa.gov/sfa/hms/swordfish_catch_statistics.htm or contact Chris Rilling at (301) 713-2347 x127.
